

E-Book Title and Section Requests

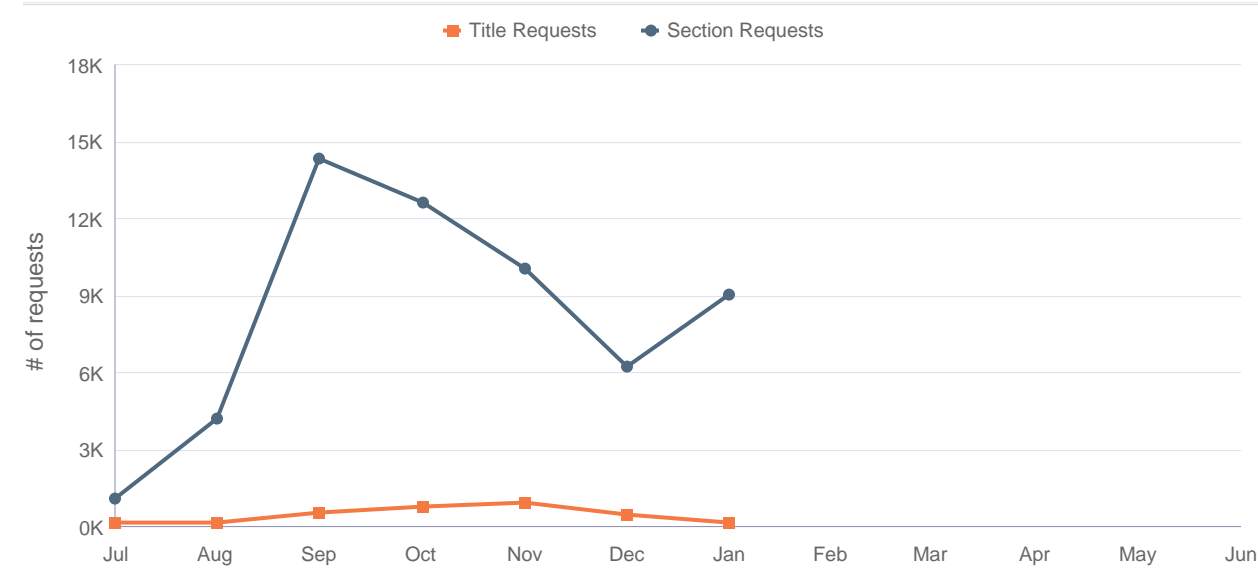

This report examines how e-books are used across platforms. It contains the total number of titles used as well as the number of title and section requests. A **title request** is when a user accesses an entire e-book as a single file and often occurs when an e-book is downloaded as a PDF or EPUB file. A **section request** is when a user accesses part of an e-book, such as an individual chapter or encyclopedia article. The data in this report is aggregated from COUNTER (R4) Book Report 1 (BR1) and Book Report 2 (BR2) files.

3,402
Titles Used

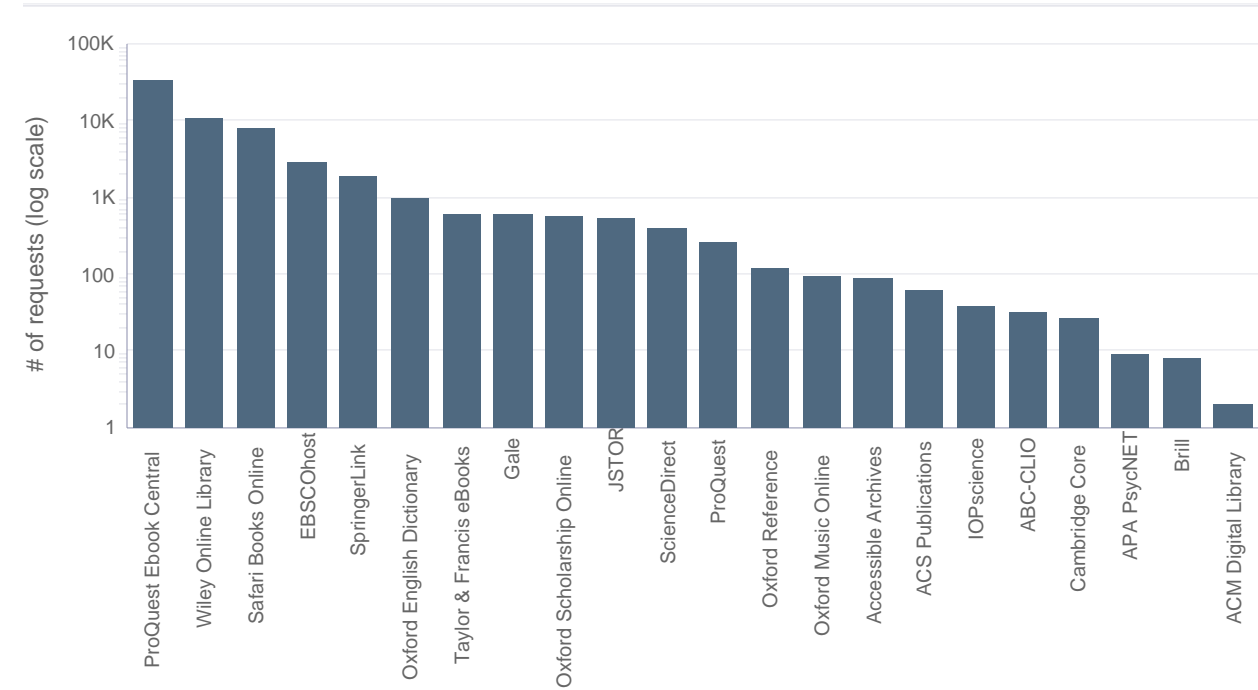

3,185
Title Requests

57,708
Section Requests
